SUMMARY

I'm Ryan, a collaborative team member & leader who enjoys simplifying architectures with every change. I enjoy shipping agentic automation workflows using AI, LLM's, ML, GenAI, and speech. When building front-end & back-end solutions, I measure site uptime, infrastructure latency, accuracy, \$/task, and \$/quality. I've scaled apps to millions of users and have built durable infrastructure with an emphasis on observability, reusability, reliability, cost-efficiency, speed, and security. My background includes 10+ total years of Engineering, 7+ years of Python, and 6+ years of TypeScript

TECH STACK

- LLM Ops / Semantic Kernel / LangChain / CrewAl
- OpenAPI / Agents / MCP / Voice / Al Evaluations
- Machine Learning / Scala / Java / Apache Spark
- Python / PyTorch / TensorFlow / NeuralNets
- Multi-Tasking with Codex / Copilot / Aider
- DevOps / Docker / Kubernetes / CICD
- Databases / SQL / GraphQL / NoSQL
- GCP / Azure / AWS / Cloud / SecOps

- React Native / iOS / Android / Swift / Kotlin / Expo
- TypeScript / React JS / Next JS / HTML / Streamlit
- Apple Pay / Payments / Subscriptions / Checkout
- IMAP / POP / Email Templates / Push Notifications
- SEO / Referrals / Marketing Campaign Automation
- Automations / Queues / RabbitMQ / Cron Jobs
- Admin & Ops Dashboards / CLI Tooling Scripts
- WebSockets / Flask / FastAPI / Express / DNS

EXPERIENCE

Al Engineer & Solutions Architect • Archlife Industries Software (100% Remote)

2020 - Present

- Automated LLM's to advertise on Reddit by reading posts & commenting on the best ones
- Deployed agentic endpoints for facilitating merchant onboarding & inventory management
- Delivered three chatbots using RAG, tool-calling, voice-powered commands, & interactive maps
- Published four social networks and two eCommerce marketplace platforms on iOS/Android/Web
- Architected powerful admin dashboards for marketing analytics, API logs, & database management
- Resolved bugs in the mapping software & bluetooth plugin for a PSTN telecommunications company
- Shipped a cross between Robinhood & Kaggle for socially exchanging stocks & crypto using scoreboards

Al Engineer & iOS/Android Engineer • CellarTracker (100% Remote, Seattle)

2023 - 2025

- Helped to boost the new app's ratings to 4.9 average, over 8,000+ 5-star ratings
- Wrote both the front-end & back-end for CellarChat™ LLM agent to 1M+ members
- Architected OpenAPI pipeline, fine-tuning pipeline, & LLM metrics evaluation pipeline
- Embedded Apple Pay code in the React Native mobile app to generate higher revenue
- Implemented recommended wines, activity feed posts, barcode scanning, image search
- Translated legacy API for collecting mobile app report tickets to generate HTML emails
- Developed the mobile app's analytics implementations for tracking user interactions
- Rebuilt legacy mobile app using React Native to support both iOS & Android devices
- Iteratively improved the redux store for efficient and persistent state management

Back-End & React Native Developer • Demosphere (100% Remote, Washington D.C.)

2022 - 2023

- Transitioned entire codebase from Javascript to Typescript for increased long-term maintainability
- Improved computational and network efficiencies by reducing load times and runs to the database
- Evaluated Google Crashlytics to reduce edge case crashes and improve p95 stability & performance
- Improved existing group chat features, push notifications, & native calendar sync to improve reviews

- Integrated various APIs, including: bank accounts, stocks, & cryptocurrencies
- Managed front-end, custom back-end cloud functions, & authentication endpoints
- Wrote the data visualizations logic for viewing the performance of stocks & crypto
- Built social network features: chat, user profile, posts, likes, emojis, and comments
- Constructed core functionality: copy portfolio, trending investors, & suggested stocks
- Custom-built a companion admin web dashboard to monitor the mobile app's performance

Web Developer · instaSod.com, CustomizedChristmasLights.com (100% Remote, Atlanta)

2015 - 2019

- Built & marketed PHP websites & local businesses online to generate \$500k+ of gross sales in three years
- Planned & founded two local small businesses: landscape design/contracting & professional christmas lighting
- Engineered user experience of uploading videos to website, answering questions, & receiving PDF pricing proposal

EDUCATION

Computer Science & Mathematics

Georgia Southern University • Statesboro, GA

2011 - 2012

• Calculus, Statistics, R, Data Structures, Programming Principles, Linear Regression, Visual Basic, C, C++

Data Science

BloomTech, Y Combinator • 100% Remote • San Francisco, CA

2019 - 2020

- Productionizing Supervised/Unsupervised Machine Learning Models, Recommendation Engines
- Deploying Computer Vision (CV) Models, Voice, Natural-Language Processing (NLP) Pipelines
- PySpark, Python, Data Engineering, SQL/NoSQL Databases, Back-End API's (Flask / FastAPI)

Machine Learning & Data Science (Teaching Assistant)

Vanderbilt University, EdX • 100% Remote • Nashville, TN

2020 - 2021

- Through the act of teaching, I gained exposure to hundreds of machine learning applications
- Taught 900+ college students machine learning, API's, JavaScript, HTML, Python, dashboards, & databases
- Managed a busy schedule of remotely teaching 30+ university students per week for ~60 minutes per lesson

AWARDS & CERTIFICATIONS

- **2019**: Y Combinator Startup School
- 2019: AWS Cloud Practitioner
- 2020: Google Cloud Developer
- 2020: TensorFlow Developer

- **2020**: Machine Learning Pipelines
- **2020**: Mosh React Native Academy
- **2022**: Ethereum Blockchain Developer
- **2024**: NASA Hackathon Finalist (Top 1%)
