

TECH STACK

Programming Languages

• Python, TypeScript, Rust, Go, Java, C#, Ruby, Swift, Kotlin, Bash, JavaScript, PHP, C++, Objective-C, R, Solidity, Dart, Flutter, XML

AI/ML Systems

• LLMOps, RAG, Agents, MCP, Evaluations, Semantic Kernel, LangChain, Langfuse, ML Pipelines, Computer Vision, Vector Search, Embeddings, PyTorch, Knowledge Graphs, TensorFlow, Scikit-Learn

Platform & Backend Engineering

• DevEx, Node.js, FastAPI, Nest.js, Express, .NET Core, Microservices, OpenAPI, REST, GraphQL, WebSockets, Webhooks, gRPC, Django, Kafka

Data & Persistence

• PostgreSQL, SQL, NoSQL, Redis, Vector Databases, ETL, Snowflake, Graph Databases, Entity Relationships, Caching, BigQuery, PySpark

Cloud Infrastructure & DevOps

• AWS, Azure, GCP, Cloudflare, Docker, GitHub Actions, Terraform, Kubernetes, CI/CD, CloudOps, Monitoring, DNS, Networking

Front-End & Product Engineering

• iOS, Android, Swift, Kotlin, React, React Native, Flutter, Expo Router, Next.js, Redux, Streamlit, Animations, Design, User Feedback

Distributed Systems & Operations

• Queues, Redis, RabbitMQ, Analytics, Pub/Sub, Linux, Airflow, Event-Driven Architecture, VoIP, Observability, Admin Systems, WebRTC, Rate Limiting, Horizontal Scaling, Load Balancing, Cron

Security, Identity & Compliance

• AuthN, AuthZ, OAuth, SOC 2, Identity, Role-Based Access Control, JWT, Secure Systems Design, SSO, API Security, Secrets Management

Payments, Communications & Integrations

• Stripe, Apple Pay, IAP, Billing, Subscriptions, Wallets, Twilio, SMS, Push Notifications, HTTP APIs, Marketing Tech, Email SMTP/IMAP

Blockchain & Web3

• Ethereum, Solana, dApps, WalletConnect, MetaMask, Polygon, Solidity, Smart Contracts, Ethers.js, Tokens, ERC-20, ERC-721

EXPERIENCE

Fractional AI Systems Engineer • United States • Remote

Jul 2025 - Present

• Building full-stack AI-enabled products & secure automation systems across agents, semantic intelligence, OSS, and now focused on healthcare

Senior AI Systems Engineer • CellarTracker • Seattle • Remote

Aug 2023 - Jul 2025

- Scaled agentic CellarChat™ to 1M+ international members using Python, TypeScript, Redis, C#/NET, embeddings, React Native, & Microsoft Azure
- Architected OpenAPI tool-calling logic, embeddings, RLHF fine-tuning, LLM evaluations, and observability systems on Azure AI Foundry
- Implemented various ML-powered recommendations to improve discovery, member engagement, and user satisfaction
- Increased recurring revenue 25%+ with Apple Pay subscriptions & grew mobile app ratings to 4.9★ (10k+ reviews)
- Deployed quantifiable A/B tests related to the payroll, agentic responses, and ML recommendations

Mobile Engineer (Full-Stack) • Archlife Industries • Miami • Remote

Sept 2021 - Aug 2023

- Built SOC 2 compliant systems, such as secure Plaid bank connections, KYC user-onboarding, trending investors, and suggested stocks
- Engineered TypeScript eTrading mobile app for stocks and crypto, including public leaderboards and copy-trading portfolio workflows
- Developed internal admin dashboard to monitor infrastructure deployed via AWS Terraform, Golang observability, and key metrics

Data Science & Machine Learning Tutor • edX • Vanderbilt University, UC Berkeley, +24 others • Remote

Jul 2020 - Sept 2021

- Taught 900+ online students Python, machine learning, TypeScript, web development, and databases during full-time tutoring sessions

React Web Developer (Full-Stack) • Georgia Hybrid Landscaping • Alpharetta, Georgia

Oct 2015 - Jan 2019

- Built payments, media-uploads, pricing proposals, analytics, and marketing systems supporting \$500k+ gross online sales via Java Spring Boot

Payments Systems Intern (Card Processing) • Cost Plus Processing • Alpharetta, Georgia

Sept 2012 - Jan 2013

- Supported merchant-processing workflows and analyzed card transaction lifecycles, interchange, risk, and payment routing

EDUCATION & TRAINING

AI Engineering Fellowship (G3) • Gauntlet AI • Austin, TX • 2025

Data Science & Machine Learning Bootcamp • Lambda School (YC-Backed) • 2020

Computer Science & Mathematics Coursework • Georgia Southern University • Statesboro, GA • 2012
